Since the bear market steepening in US rates began after the US debt ceiling resolution on June 1st, the combination of higher rates, wider credit spreads, softer equities and a stronger US dollar have led to a material tightening in US financial market conditions. With financial markets now doing the tightening, the Fed has more flexibility to "pause" in its tightening cycle by maintaining a somewhat hawkish communication strategy.

US Financial Conditions Index

Key drivers of tighter financial conditions

Source: (1-7) Bloomberg. Data as of November 9, 2023. Federal Reserve Bank of Dallas. Banking Conditions Survey. Data collected September 19-27 and 69 financial institutions responded to the survey.
