Essential inCights for the C-Suite

MUFG

Chart of the Day

According to the World Economic Forum, structural labor market changes driven by technology innovations, the green transition, economic uncertainty, geo-economic fragmentation and demographic shifts will create 170 million new jobs over the next five years. This growth is expected to be offset by the displacement of 92 million jobs, resulting in 78 million new jobs.

Job creation over 2025-2030 period
